Who is Oxbow Partners?

We are a fast-growing consultancy focused on the insurance industry. We cover strategy, digital, M&A and risk. Oxbow Partners was set up in 2015 by a group of people frustrated with traditional consulting who wanted to make a real difference to our clients.

We like to help our clients get things done. We use our real-life business experience to get properly involved in our clients' situations and give them practical, actionable advice – not just PowerPoint slides.

- 🕒 *Project management support* – supporting the manager and partner to deliver the project on time and on budget

- 🕒 Oxbow Partners is recognised as market-leading - the Financial Times ranked us in the top 10 insurance consulting businesses in the UK in 2017. We are recognised across the industry for our thought leadership with our content being viewed over 200k times.
- 🕒 Oxbow Partners combines the best of “big consulting” with the best of the start-up world.
- 🕒 Clients engage us for practical advice, led by Partners who are recognised experts in the industry.
- 🕒 Our working environment is entrepreneurial: we have no set corporate rules and pursue opportunities that interest us.
- 🕒 Our clients are some of the largest and best-known insurance businesses including: Aviva, AXA, Aon, Zurich, Swiss Re and Munich Re to name but a few.
- 🕒 Oxbow is a great place to learn top-tier consulting and insurance. You will be an important member of the team. We will ensure sure you are involved in a broad range of activities from day one.
- 🕒 We expect a lot from our consultants, but we also treat the team with respect. Work hours are typically reasonable and you should not expect to have work over weekends.

Why Insurance?

- 🕒 Insurance is essential. Insurance covers nearly every aspect of our lives from ensuring supply of goods and services to protecting people and property when things go wrong.
- 🕒 Insurance provides variety. Insurance provides a constant opportunity to learn new topics. Some recent examples include: how can sensors help factories avoid interruptions? What does social media mean for insurance buying? What impact will artificial intelligence have on pricing?
- 🕒 Insurance is embracing change. Insurers have hardly changed in 400 years. Insurance businesses have recognised the need to change and are investing heavily in innovation. Oxbow Partners is at the heart of this change. For more information see our blog page (www.oxbowpartners.co.uk/blog)
